# Year 11

14 students still on 100%

94 students on 95% or more

- This has traditionally been a poor half term for yr11 attendance
- This is probably one of the most important half terms as it will be the last chance to get input from staff with revision etc.
- You need to keep attendance high for college applications/apprenticeships etc
- You can never get this time back and ( no matter how you feel now) you will miss college when you leave

# Yr 10

16 students still on 100%  
109 students on 95% or more

- Work experience is a really important time for you and will possibly help in decision – making for your future
- Use the time well and do you best as a good work experience report will be valuable to you for college/job interviews
- Use your remaining time in college to boost your attendance in preparation for your final year at Unity college

# Yr 9

21 students still on 100%

119 students on 95% or more

- While your attendance has been good this year there is still room for improvement
- You are moving in to Upper school and beginning very different courses. Good attendance in Upper school will boost your chances of exam success
- Make sure you finish your lower school with the best possible attendance.

# Yr8

11 students still on 100%  
122 students on 955 or more

- The best year attendance in the whole college so far. But still time to pull away and increase your lead over the others
- Don't let it slip and make sure we get a record number of yr 8 students in the 100% draw this half term

# Yr7

18 students still on 100%

115 students still on 95% or more

- A disappointing year this year as yr 7 are usually streets ahead of the others year groups
- Still time to make it better and push yr8 in to second place
- Last few weeks as the youngest students and soon time to move in to your new PD groups – will you be able to help your new group win the Attendance League Cup?
